

Unit: participant; released extracted smile features.

Sensitivity analyses; groups are not raw-image anatomical regions.

c Evidence and access boundaries

Resource	Unit	Participant key	Raw pixels	Location test	Shortcut controls	Public execution	Maximum claim
PD-DBS	image	NO	restricted	YES	YES	NO	image-level stress test
YouTubePD	clip	NO	URLs	YES	YES	SOURCE-DEP.	confounded clip-level audit
PARK	participant	YES	NO	NO	LABEL SHUFFLE	YES	feature association

d Permissible inference

ESTABLISHED	PRIMARY RESULT	NOT ESTABLISHED
Predictive discrimination exists in the tested resources	Named locations receive no support in either raw-data application	Faithfulness, causal anatomy and clinical utility
